Treasurer Provides Board with Additional Information on Credit Card Issue

## Huron Township Auditors Present Annual Report

BY MARGARET E. O'KELLEY

**EDITOR'S NOTE:** Mrs. Yvonne Schoedel, the President of Concerned Citizens Coalition (C3), has addressed the Board regarding their concerns over the credit card policy and the usage of the cards. They have made several Freedom of Information requests and according to Mrs. Schoedel, they will make additional requests.

The "Huron Weekly" is mindful of its responsibility to report local news in a fair and evenhanded manner. We are sensitive to the need to balance the citizen's right to know with the needs of the Board members/employees that may come under scrutiny. As this issue unfolds, we will rely on the remarks made at the Board meetings and reliable information provided by the citizens. Since this issue will span over several issues of the Weekly, we ask the readers not to rush to judgment and wait until all information has been presented. This is important, because several questions or expressed concerns may not be fully addressed at any one meeting nor covered in any one article. However, we are confident the full story will eventually be told and we are

prepared to present it to you.

This issue will report on the annual audit report that was summarized at a Township Board meeting that was held on June 27th.

Plante & Moran, the Huron Township auditors, made their annual audit presentation on June 27th at a special Board meeting. This presentation occurs each year after an audit is completed of the township. Generally speaking the meeting is short and uneventful. However, the continuing credit card issue took up a lot of time and was prompted by the auditor's remarks regarding the issue and additional information provided by Treasurer O'Kelley.

Plante & Moran provided several charts, the actual report and a summary of the report for the Board members. The first chart showed a general fund revenue of \$3,742,000. They pointed out the biggest increase in terms of revenue was the "licenses and permits." The source went from \$682,000 in 2003 to 1.2 million in 2004. This was reflective of the increased building that is going on in the township. They also noted state revenue sources were the second largest source of income at 1.08 million.

The general fund expenditures were \$3.2 million. The largest area of expenditures was "general government" and came in at 1.12 million followed by "public safety" at 1.02 million. In general, about 56% of the expenditures or 1.79 million was for payroll and fringe benefits.

This led to another chart that showed a fund balance of almost two million, which was comprised of "Reserved Fund Balance" and "Undesignated Fund Balance." Following that information was a

graph that showed the fund balance was 29%. According to the auditors, this was little on the high side but should be considered a healthy sign.

The auditors said there were "no reportable conditions" which they defined as absolutely needed to be fixed now. However, they did have several recommendations. They suggested a better segregation of duties and need for staffing to provide additional check and balances. They recommended the treasury department provide a second verification and get involved in the "month end verifications". They suggest the prescription reimbursement not be made out of the petty cash. Several procedures need to be placed in writing. They said several credit card transactions did not have proper documentation or approvals. They said their sampling showed they were being reviewed but it needed initials showing the review was done.

Following the presentation, Treasurer O'Kelley told the Board he had asked the auditors to look at the credit card receipts. He questioned the auditors and asked if they ever saw any vouchers that showed question marks after a noted purchase, handwritten notes that said "personal use" or "don't pay"? The response was no.

O'Kelley then pointed out the packet of information he had provided each board member prior to the meeting and attempted to briefly describe each document so they could better understand them when they had time to review.

He said the packet included the State Of Michigan Act on credit cards, two memos he had issued, one to the credit card users and one to the accounting department. The rest of the information was

provided by C3 at his request.

It included a response that had information blacked out. It also included another copy that did not have the information blacked out. He said this was the result of another request made by C3 for the blacked out information. He said most of the remaining documentation consisted of copies of vouchers and receipts involving the clerk.

He was interrupted by the Supervisor and after several interruptions, he stopped trying to explain the documentation and turned to getting a motion passed that would have the Township auditor Plante & Moran take possession of the credit card records and seal them until the Board decided how to proceed. He added that future Freedom of Information requests would likely occur and he thought the records could be produced and then resealed.

This suggestion created a series of comments by the Board members. Trustee Spangler thought it should be an agenda item. Supervisor Mitchell again repeated that he took the original spreadsheet and discussed with the township accountant. He described the expenses as justifiable. He mentioned two gas station purchases on one day. He said he had determined there was a gas purchase and a separate ice purchase. He said we should not make any decisions or make assumptions until all of the information is received. He suggested a committee look into the matter. To this, O'Kelley responded that a committee of Board members

would make it look like a political matter and to protect the Board and the community, an independent body needed to look into the matter.

Trustee Pappas suggested this inquiry was aimed as an attack on the Board and he said several Board members weren't even on the Board when some of this took place.

O'Kelley continued to caution the Board that the records needed to be placed in independent hands. He again repeated that it is likely a state agency would eventually get involved including the outside media and a possible lawsuit. He said the Township needed to take steps to protect itself.

Trustee Glaab said he was in the process of meeting with the clerk. He felt he wanted to meet with the clerk and if not satisfied they could go to another level. The auditors said they were required to go to the State of Michigan if the township asked them to get involved. The treasurer responded they could still take possession of the records until the Board decided what to do. Beth Bailey of Plante & Moran said she would feel uncomfortable taking possession of the records if that was the only instruction given by the Board. Trustee Lilly said the clerk should have an opportunity to respond and there should be an investigation to look into the matter.

The Board agreed to review the information that was provided, discuss with the clerk on an individual basis and to place it on the next agenda and that would be the July 13th meeting.

# Safety Village Update Shows Continued Dedication

Safety Village Committee members and Township residents alike have not been sitting idle. Over the last 10 days, a lot of progress was made. The site layout began on June 16th and the momentum has not stopped.

To date, all the concrete formwork has been completed and ground compacted in preparation for the laying of the concrete. The locations of the miniature buildings have been marked and labeled with the names of the sponsors including Huron Township Hall. The site is available to anyone who wishes to visit. Mind your step as it is still

under construction.

The Safety Village Committee wishes to express its gratitude to everyone who came out and assisted with the labor, which will help this project achieve its completion. Thank you to Art Delano for his expertise operating the shovel, Brian Kostielney who helped with compacting foundation. Trustee Spangler's son Sean who operated the excavator which was loaned to us by Mans Lumber and Millwork and of course, the committee members, Robert Metzger, Bryan Tytje, Amy Rauschenberger, Chris Swatzenbarg and Dan Spangler.

Our next goal is to have the concrete in place and finished by July 1st.

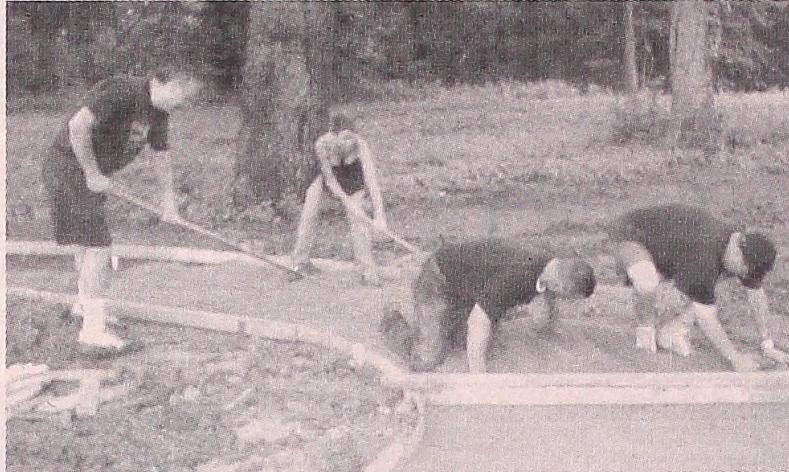

Incidentally, the concrete is being donated to the program by Messina Concrete of Flat

Rock and poured free of charge by a contractor who will be recognized at a later date.

From the committee's standpoint, it is overwhelming to be

on the receiving end of the Township's residents and business owners' interest and generosity. It is very rewarding to see the amount of community involvement.

We can only hope that this is the beginning of something great in our community and that the momentum will continue on into other community projects.

## Feasibility Study Determines the Need for Another Border Crossing

A recently completed feasibility study determined that there is a long-term need for increased border crossing capacity in Southeastern Michigan. There are currently 15 different crossing proposals for crossings along the Detroit River which are categorized into 4 broad corridors:

- The Eastern Section (area near Belle Isle),
- The I-75/1-96 Section (area near downtown Detroit),
- The Central Corridor (area near River Rouge and Ecorse) and
- The Southern Corridor (area near Wyandotte, Riverview, Trenton and Grosse Ile).

The DRIC project is considering all 15 proposals, and is in the process of collecting public feedback on the proposals. Canadian counterparts are doing the same on the other side of the river. The four agencies tasked with this project – Federal Highway Administration, Michigan Department of Transportation, Ministry of Transportation Ontario and Transport Canada – intend to narrow the proposals down

from fifteen to three by the end of the year.

It is important to note that the DRIC is weighing factors such as the need to protect cultural resources and the natural environment and what the toll would be on communities and neighborhoods as well as, how the project could be built and what it would do to regional mobility.

### How to Be Heard:

Public comment from Downriver residents is crucial. You can comment via the internet at: <http://www.partnershipborderstudy.com/contactus.asp>. Or if you attend the meeting, there will be a form available for submission. You can mail or fax comments to:

Bob Parsons, Public Hearings Officer, Bureau of Transportation Planning, Michigan Department of Transportation, P.O. Box 30050, Lansing, MI 48909, Fax (517) 373-9255.

You can comment by telephone at 1-800-900-2649.

When submitting comments, remember to include your name, address, phone number and email address.

Further, the DRIC is also collecting public input to

determine the public's perceived value of seven decision making factors. DRIC wants the public to tell them what factors are most important to them.

Anyone interested in viewing the proposals or gathering more information on the site

selection process is encouraged to visit: [www.partnershipborderstudy.com](http://www.partnershipborderstudy.com). If you have any questions, please do not hesitate to contact me at [kathleenlaw@house.mi.gov](mailto:kathleenlaw@house.mi.gov).

Please know that State

## Phoenix Cadet Squadron Announces Promotions of Local Cadets

The Phoenix Cadet Squadron located in Romulus, Michigan, is proud to announce the promotion of: C/Amn Sheryl Jacobs to C/AFC, C/MSgt Steve DeLisle to C/SMSgt., and C/CMSgt Benjamin DeLisle to C/2Lt. All three cadets have shown a commitment to the CAP and are looking forward to going to the Michigan Encampment being held at the Alpena ANG Base, Alpena, Michigan in July 2005 along with fellow squadron members.

The Michigan Encampment is a one-week experience for the cadets to live in military style housing, stand inspections

and attend classes and hear lectures from noted people in Aerospace, Safety, Homeland Security and Cadet Programs. All three cadets are on the squadron color guard and are active in the Cadet Programs.

#### Rank Explanation:

C/ = Cadet

Amn = Airman

AFC = Airman First Class  
SMSgt = Senior Master Sergeant

MSgt = Master Sergeant  
CMSgt = Chief Master Sergeant, called "Chief" (Highest Non-Commissioned Officer rank in USAF/CAP)

2Lt = Officer Rank; Second Lieutenant

(L to R) C/Sgt Josh Zilka, C/AFC Sheryl Jacobs, C/SMSgt Steven DeLisle and C/2Lt. Benjamin DeLisle Taken by: Maj. A. Machcinski CAP, PAO.

State Rep. Kathleen Law (D-Gibraltar) watches Governor Jennifer M. Granholm sign her bill to fight the spread of the emerald ash borer during a ceremony at the State Capitol on Thursday. Rep. Law is a sponsor of the bill, which passed the House overwhelmingly in April. Public Act 52 would toughen penalties for people who move ash outside Michigan's 20 quarantined counties. The measures include making violations of the quarantines felonies punishable by prison terms of up to five years. Rep. Law has fought for more than two years to enact legislation to stop the spread of the invasive pest.

## Need for Bridge Crossing for Downriver - Input Wanted (Continued from page 3)

Representative Kathleen Law of the 23rd District is opposed to an international bridge crossing in the Downriver area, and will do all she can to support and

protect the best interests of Downriver. She also states, "Thanks for your attention to this matter, and please send this to anyone who may be interested."

# Dr. Audrey Hosts Diversity!

Dr. Audrey was invited to Las Vegas by the Ford Motor Company to participate at their table. The Las Vegas convention center was booked and organized by Women in Business. Dr. Audrey signed 250 autographs for the people that

came to the Ford booth.

She was asked if Ford really practiced Diversity. Dr. Audrey replied, "I'm here aren't I?" This comment was met with enthusiasm and open the door to a conversation about the company and what it has to offer.

## Senate Dems Gear Up - End-of-Session Push

Senate Democrats headed into the last month of session before the summer recess with energy and cautious optimism trying to push through important legislation relating to saving our natural resources, creating new jobs, and protecting consumers.

So far this spring, Republicans have chosen to rename both a prison and a government building, but they cannot find time to discuss important quality-of-life and economic development proposals. Additionally, the budget process once again demonstrated the Senate Republicans' lack of concern for Michigan's citizens, underscoring their disconnect with what we value most: good jobs, quality schools, fair taxes, and a safety net for our most vulnerable citizens.

### Senate Democrats Pass Legislation to Protect Michigan's Children

Senate Democrats successfully shepherded through legislation that would hold retailers responsible for the sale of adult-rated video games to minors. Sen. Clarke (D-Detroit) sponsored the bill. To win public support for the legislation, Senate Democrats held public hearings in Lansing and Detroit. Testimony from

those meetings along with the results of an independent investigation requested by Gov. Granholm gave undeniable evidence that there is a compelling state interest in

supporting this common-sense legislation.

This effort to protect Michigan's children is now in the hands of the State House of Representatives.

## The Weekly

Your Cosmic Look For The Week Of Junly 15th through July 21st, 2005

(For entertainment only)

**Leo July 24 - Aug 23**

Once in a while, you have to let loose. Attend what you have been invited to. Good times and noodle salad are just what you need. Enjoy yourself and your good attitude will shine with beauty. 3980

**Virgo Aug 24 - Sept 23**

A no win situation turns in an unexpected direction before you can say quit. Stick in there with the best of them and earn the envy of little hearts. Good people are attracted to your soulfulness. 2611

**Libra Sept 24 - Oct 23**

Dogs bark in your ear everyday, but you still have no excuse for selective hearing. Listening up might do you big favors. Read between the lines and listen to the wind. You never know what to expect until you have the patience to think about it. 6363

**Scorpio Oct 24 - Nov 22**

Look for courage to boost your confidence. You are what you want to believe in. You are what you project, after a matter of time. The calling you have been waiting for has an immediate opening, so think fast. 9468

**Sagittarius Nov 23 - Dec 21**

You know what you want, now scream it out loud! Speak your intentions clearly and end the wilderness. Most importantly, do not under value yourself. 1111

**Capricorn Dec 22 - Jan 20**

A momentous occasion sets off a bomb between you and someone close. Subtle movements seem to calm down the commotion that will stem. Be careful, blood sometimes flows just as fast as water. 2383

**Aquarius Jan 21 - Feb 19**

Embark on endeavors bigger than you this week and lead to accomplishing better ideas than ever. You are the strength needed to succeed. Let the force drive you; not over others, but through a clear path. 5554

**Pisces Feb 20 - Mar 20**

You are preoccupied by a grand wish and have one foot out the door. The key to freedom is thinking like a non-conformist. You are creative enough to be your own career coach. 6398

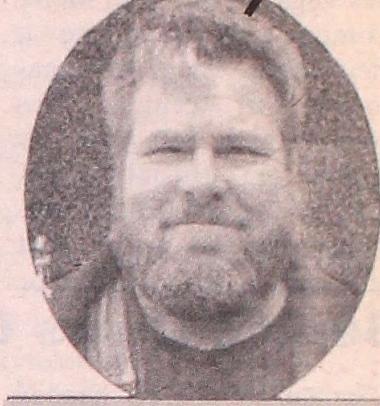

**Aries Mar 21 - April 20**

Backyard get-together means more to others than can be said. Time is now to appreciate what might not be there in the latter years. Preserve all good times on film for proof of young souls who unfortunately miss out. 1413

**Taurus April 21 - May 21**

Strong supporters become lasting impression in youthful souls. Challenge young minds. When times needs passing, some of the darndest ideas come from the mouths of babes. Listen, process and apply toward other minds in motion. 1297

## Horoscopes

William Grover

**Gemini May 22 - June 21**

One who has spoken seems out of place. Keep record of what has been said. Never leave notes unattended as misinformation could get dispersed in the wrong manner. 6662

**Cancer June 22 - July 23**

You are about to break free. You have a brilliant mind for business and it can surprise others who think you are just a charmer. Soon you will channel all your diverse skills into one successful venture. 6666

## Harry Potter Parties at Libraries, New Potter Book to be Released

The latest in the Harry Potter series, Harry Potter and the Half-Blood Prince will be welcomed to Monroe County with activities awaiting the book's arrival in two library branches. On Friday, July 15 both the Ellis Reference and Information Center, 3700 South Custer Road, and the Bedford Branch Library, 8575 Jackman Road, will host parties to celebrate the release of the new book.

"Potterpalooza" begins at the Ellis Reference and Information Center at 6:00 p.m. and lasts until the sale of the book at 12:01 a.m. Ellis will be transformed into "Hogwarts Summer School" with Potter themed activities for all ages including wand

making, Quidditch, potions class, a treasure hunt and a costume contest. Harry Potter movies will be shown continuously and participants will have a chance to win tickets to be entered in the hourly drawing to win a free copy of the book. At 12:01 a.m., a limited number of the new books will go on sale.

The Potter party at the Bedford Branch Library starts at 8:00 p.m. and lasts until the sale of the book at 12:01 a.m. This party will also feature Quidditch, magical snacks, Hogwarts classes and a costume party complete with prizes for the best Harry, Ron, Hermione and other characters' costumes. Copies of the new book must be pre-

ordered at the Bedford Branch Library by calling (734) 847-6747 to reserve a copy. Due to publisher's restrictions, no books will be sold until a minute past midnight. Sale of the new Harry Potter book is made possible by the Bedford Friends of the Library. For other Library programs and information, visit our web site at [www.monroe.lib.mi.us](http://www.monroe.lib.mi.us).

Harry Potter heads off to new adventures in the latest book of the series. Local libraries will hold parties to celebrate.

**Why Basements Leak... From American Water Systems, Inc. - Call for a Free Inspection!**

Water is the most powerful force on Earth. One inch of rain equals 27,000 gallons of water per acre. Once water enters the basement, chances are that it will occur again. It is also likely that it will continue to get worse.

Water has memory; it will follow the same path each time your basement leaks, thereby creating a larger path. Most homes are built with some sort of waterproofing. Here are some common reasons why basements leak:

**False Water Table**

A False Water Table was created when your basement was built. The first step in building your basement was to dig a large hole. The earth surrounding this large hole is soil compacted by millions of years, also referred to as "Hard Pan". The earth being removed from this hole will never be as compact when it is put back. This is referred to as "Soft Pan". When it rains, or when snow melts, the water will follow the path of least resistance.

Thus, water flows from Hard Pan to Soft Pan and creates a false water table.

**HOMEOWNER'S GUIDE TO BASEMENT WATERPROOFING** - Published by: American Water Systems, Inc., 2002 American Water Systems, Inc., License: Michigan #2104133703.

To request a Free Inspection, call: : 1-800-900-7090

As water continues to fill the false water table, some of the water will begin to flow (through gravity and pressure) to the real water table.

However, water that has accumulated around the false water table will continue to rise when either the water is coming too fast, or the real water table is full and cannot handle the volume of water any longer. As the water fills all pockets and voids it will continue to rise until it reaches the floor.

Then it will fill the voids against the walls. A False Water Table is created around all houses and buildings even if there are built on high ground or even a hill.

**Hydrostatic Pressure**

Hydrostatic Pressure is pressure caused by water seeking its own level.

Once the false water table fills up and becomes higher than the floor,

Hydrostatic Pressure is created. Water pressure is 63.4 pounds per cubic foot in all directions. The reason it sometimes takes a heavy rain for water to actually become visible is because the cavity under the basement floor can hold up to 2,500

gallons of water. When Hydrostatic Pressure occurs, water seeks the path of least resistance. This could be cracks in the floor, cracks in the walls, key ways or cove areas (where the floor and the wall join together).

**NOTE:** Once Hydrostatic Pressure causes seepage, the problem can only be solved by a system designed to relieve pressure and control the water. Excavation and do-it-yourself methods can not and will not solve the problem. Water rises equally on all four sides and will seek the path of least resistance into your basement (most often the cove area).

**Do-it-yourself Hints**

Sometimes the cause of water seepage or dampness is just something that you have overlooked. Such as improper/poor grading surface water from downspouts, gutters or another source. You can request an inspection to determine whether this is indeed a minor problem or something that would require a professional's attention.
